**Were there any significant obstacles to learning that were beyond the control of the instructor (e.g., scheduling or technology problems, university closings, limitations caused by other students or by group dynamics)? If so, please explain.**

| no  |
| The significant obstacles to learning are limitations caused by group dynamics, because this is an online course and we don't meet during the semester, only communicate during Symposium analysis by Microsoft team. |

**What 2-3 aspects of this course were most valuable to your learning experience?**

| Comments   |
|--|
| Having posted discussions. It was fun to see the different responses and reply.<br>It was good to go into non-classical music analysis.<br>The videos were also good to see, to observe how other students explain musical pieces. |
| The most valuable aspects to my learning experience are touching with various perspectives of theory of music and the contents involved both in instrument and singing music.  |

### What 2-3 aspects of this course were least valuable to your learning experience?

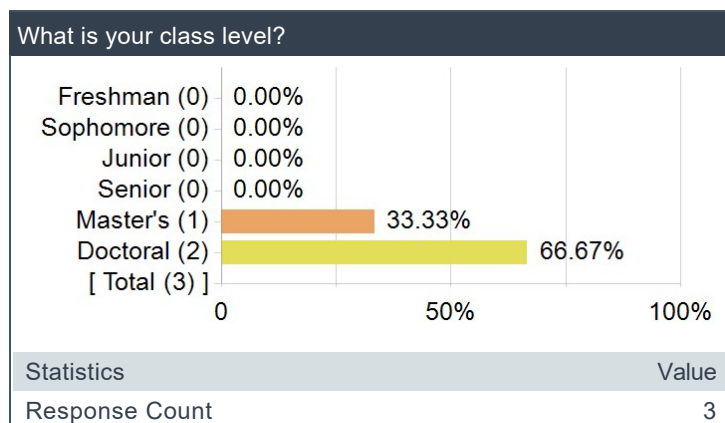

| Comments   |
|--|
| The rubrics always seemed really harsh. It is good to be specific about what was graded, but often I felt like I tried my best and did a pretty good job, but ended up with a C because I thought of things differently. |
| The least valuable aspects to my learning experience are some contents are hard to find the extension textbooks and some of the contents are hard to find the accurate examples.   |

### What modifications do you suggest for the next time the course is taught?

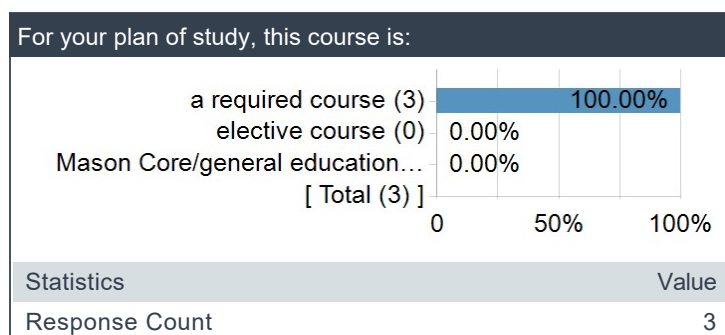

| Comments   |
|--|
| Maybe have the rubric have 4 columns instead of 3 so a 75% can be gained in each category if it isn't perfect.   |
| The modifications that I suggest for the next time is giving more second opportunity for the submitted homework. |
